

150 Watt Tenggara Series Landscape Transformer

The Tenggara Series Landscape Transformers were designed from the ground up to offer long lasting, highly-efficient transformer for small to large landscape lighting projects. Stainless Steel housing, lockable access panel, with a top end Toroidal core and easily upgraded with the addition of a photocell or timer makes the Tenggara the preferred choice among installers.

Product Specifications

- Material: 304 Stainless Steel
- Core: Toroid
- Wire Lead: 6ft
- Photocell Expansion Port
- Input: 120VAC
- Output: 12V and 15V
